

Contributors of Articles or Had Letters to the Editor Published in *Der Bay*

This list is being published to update *Der Bay's* database. Since January 1991, the list has grown until *Der Bay* was published only online. At that point new subscribers needed submit only their email address, so the majority then became unknown to *Fishl*.

As far as the list on the following pages, they all have either had an article published in *Der Bay* or had a letter published in *Oystsugn fun Briv in der Redaktsye*, the monthly letters to the editor column. This column does not appear on the website to

prevent those who submitted letters from being contacted by outsiders. Some have moved on and are noted. With others we have lost contact, and we would be grateful if you would let us know—as well as of omissions.

There are quite a few others readers that were mentioned in *Der Bay* who were speakers or performers at our International Association of Yiddish Clubs conferences (IAYC) but did not have articles published. Some are and were dear friends—notably Professor Motl Rosenbush z"l.
